

# ATTENTION: READ THIS PRIOR TO INSTALLING THE HANA SURROUND SYSTEM ON YOUR POOL

## Safety Considerations, Warning Recommendations, and Limitation of Liability for the Hana Surround system

### NOTICE: THE HANA SURROUND SYSTEM IS NOT A DECK AND SHOULD NOT BE USED FOR SITTING, STANDING, WALKING, RUNNING, JUMPING OR DIVING INTO THE POOL.

Thank you for choosing the Hana Surround System as an addition to your Kona pool. Before installing and using this product, we kindly ask you to read and understand the following safety considerations and warning recommendations:

- **Safety Precautions:** The surround system is designed for use in specific pool configurations and must be installed according to the provided instructions. Failure to adhere to the installation and use guidelines may result in accidents, injuries, or damage to the product and surrounding areas. Always prioritize safety and follow all necessary precautions.
- **Signage for Posting:** We have included a warning placard for you to install in front of the steps on the surround shelf of the Hana Surround System. Please see the image below for recommendations regarding placement of the included

Adhere with  
provided  
hardware!

- **Installation Guide:** Please view the video found at [www.konapools.com](http://www.konapools.com) for assistance with proper installation.
- **Weight Limitations:** Ensure that the weight of water, pool accessories, and any additional loads within the pool area remain within the recommended limits. Overloading the pool may cause structural failure and pose serious hazards.
- **Regular Inspection and Maintenance:** Perform regular inspections of the surround system to check for signs of wear, damage, or corrosion. Any issues discovered should be addressed immediately to prevent accidents or further deterioration.
- **No Diving:** DIVING FROM THE SURROUND SYSTEM IS ABSOLUTELY PROHIBITED. Our surround system is not designed or intended to be a platform from which swimmers dive or jump into the

pool, and serious injury or even death can occur from doing so. Always enforce a strict "No Diving" policy and inform all users of this safety rule.

- **Supervision:** Never leave children or non-swimmers unattended in or near the pool area. Drowning incidents can occur in seconds, and constant adult supervision is crucial for pool safety. Apply multiple layers of protection to secure the pool area and minimize the likelihood that anyone could gain unsupervised entry to the pool. Multiple layers include:
  - Non-climbable 4-sided fencing that is at least 4 ft. High with self-closing, self-latching gates;
  - Automatic locks and alarms on all doors (including pet doors) that lead to the water;
  - Pool covers;
  - Pool alarms;
  - When children are not intended to be in the water, keep pool toys out of the water and out of sight;
  - Keep chairs, tables and other items a child could climb on away from the pool or hot tub enclosure.

For detailed information on barriers, download Safety Barrier Guidelines for Residential Pools from the U.S. Consumer Product Safety Commission website. (<https://www.cpsc.gov>)

- **Lifesaving Equipment:** Basic lifesaving equipment including one or more of the following items should be on hand at all times:
  - A light, strong, rigid pole not less than 12 feet (3.7m) long;
  - A minimum .25 inch (6 mm) diameter throwing rope as long as 1.5 times the maximum width of the pool or 50 feet (15.2m) whichever is less, which has been firmly attached to the Coast Guard-approved ring buoy having an outside diameter of approximately 15 inches (281 mm), or some other similar flotation device.
- **Weather and Environment:** Extreme weather conditions such as strong winds, heavy rain, or snow can pose risks to the surround system's integrity. Follow proper guidelines for securing and protecting the pool during adverse weather.
- **Limited Warranty:** Our product is covered by a limited warranty that only applies to manufacturing defects. The warranty does not cover damages caused by improper use, installation, or neglect.
- **HOLD HARMLESS:** BY PURCHASING AND USING OUR SURROUND SYSTEM PRODUCT, YOU ACKNOWLEDGE AND AGREE TO HOLD US HARMLESS FROM ANY LIABILITY FOR ACCIDENTS, INJURIES, OR DAMAGES THAT MAY OCCUR DURING INSTALLATION, USE, OR MAINTENANCE OF THE SURROUND SYSTEM.

Remember that safety is of paramount importance when dealing with pool-related products. If you have any doubts or concerns, please reach out to our customer support for assistance.

By proceeding with the installation of the surround system, you signify your acceptance and understanding of these Safety Considerations, Warning Recommendations, and Limitation of Liability provisions.
